

## Policy Administration System

Dyad's PUMAA is a submission intake and underwriting platform that supports rating, quoting and policy issuance. PUMAA allows MGAs, MGUs, and wholesalers to manage their business from data capture to multi-market comparisons to accurate quoting, risk negotiation, and placement. PUMAA also offers full policy administration capabilities.

Dyad's system is flexible and can be configured to fit any insurance product or program, including multi-office and multi-entry product launches and shared or local contracts. With access and workflows designed for retail agents, PUMAA enables them to obtain quotes and bind coverage without underwriter intervention, according to the referral rules you set.

### Accelerate Your Production

PUMAA offers complete policy lifecycle management, from application all the way through to renewal. Built-in workflows let MGAs, MGUs, wholesalers, and carriers quickly launch products and contracts, and PUMAA integrates with your back-end systems. With Dyad's PUMAA, organizations can streamline and accelerate their production with accurate rating across new business as well as renewals.

# PUMAA

Functions PUMAA helps insurance organizations handle faster include:

**Underwriting.** Complete policy lifecycle management and underwriting automation ensures you stay on top of activity, renewals, auto-renewal quotes, and more.

**Reporting.** Manage your business with insights, intelligence, compliance, and controls through our robust reporting capabilities.

**Billing.** Want to bill agencies or direct bill insureds and offer installment plans? PUMAA integrates with your existing billing system to make it easy.

**Contracting.** Effectively manage your carrier contracts with splits, real-time rolling aggregate tracking, multi-office and multi-entity contract sharing, and alerts.

## Integrations and APIs

PUMAA helps you improve your underwriting with rich data APIs that let you connect to third-party solutions, from risk modeling to financing, compliance, agency management systems, carrier integrations, and much more.

### ABOUT US

Dyad delivers software and services that simplify insurance processing and distribution. We have redefined insurance technology by continuously improving our solutions, ensuring our customers can focus on growing and evolving their business, delivering superior customer service, and implementing insightful business management. Retail agencies, wholesalers, agency networks, program administrators, MGAs, and carriers benefit from our solutions.
